Professional Summary

Computer Engineering student with strong foundations in **Data Structures & Algorithms, Object-Oriented Programming, SQL, and software development**. Experienced in building **scalable applications, RESTful APIs, microservices, and secure backend systems** using C++, Python, JavaScript, and web technologies.

Education

Pune Institute of Computer Technology, Pune Aug 2024 – June 2028
B.Tech. in Computer Engineering **CGPA: 9.03**

S.M. Choksey Junior College, Pune 2022 – 2024
HSC – **93.17% (2nd Rank)**

Acharya Shree Vijay Vallabh School, Pune 2020 – 2022
SSC – **97.20% (1st Rank)**

Technical Skills

- **Programming Languages:** C++, C, Java, Python, JavaScript, TypeScript, SQL
- **Frameworks & Libraries:** React, Express.js, FastAPI, Flask, Tailwind CSS, scikit-learn
- **Databases:** PostgreSQL, MySQL, MongoDB, SQLite
- **Software Engineering:** Data Structures & Algorithms, OOP, REST APIs, Microservices, JWT, RBAC
- **Tools & Technologies:** Git, GitHub, Docker, SHAP, LangChain, Groq API

Projects

AnalyticX | MERN, FastAPI, MongoDB, XGBoost, SHAP, Docker Live 🐙 GitHub
• Developed a full-stack **loan approval analytics platform** processing **10,000+ records in under 5 seconds** through automated ETL and credit-risk prediction.
• Designed a modular **microservice architecture** with FastAPI-based ML inference, achieving under **50ms inference latency** and enabling low-latency credit-risk predictions.
• Implemented **REST APIs, JWT authentication, WebSockets, and Dockerized services**, supporting **100 concurrent users** with a **150ms average response time**.

Skills Connect Job Board | React, TypeScript, Express.js, PostgreSQL, Socket.io Live 🐙 GitHub
• Developed a **role-based hiring platform** connecting job seekers, employers, and administrators through job discovery, applications, messaging, and management workflows.
• Built **30+ REST API endpoints** and **10+ database tables** supporting authentication, job management, application tracking, and secure data access.
• Implemented **Socket.io real-time messaging**, AI-powered semantic search, resume parsing, Cloudinary storage, and agentic workflows for recruiters and support.

Experience & Leadership

PICT CSI Student Branch (PCSB) | Web Team Member Sept 2024 – Present
• Contribute to the development and maintenance of the official CSI website, collaborating with team members on **feature development and web application improvements**.
• Conducted a **Java Special Interest Group (SIG)** for **250+ students**, leading technical sessions and fostering peer learning on Java programming.

Achievements

- Solved **850+ problems on LeetCode**, achieved a **1802 peak rating**, and maintained a **250+ day streak**.
- Achieved a **2 star rating on CodeChef**, demonstrating consistent performance in competitive programming.
- Secured **2nd Rank** in a college-level Elocution Competition among **500+ participants**.

Certifications

- **Machine Learning Specialization** – DeepLearning.AI Dec 2025 ↗
- **Professional Skills for International Business** – University Of London Nov 2025 ↗
- **Java Programming** – Udemy Apr 2025 ↗

Hobbies & Interests
